## **I. Introductory provisions**

The municipal organization SRZ in Ružomberok, to ensure the proper exercise of fishing rights in its fishing grounds, based on Act no. 216/2018 Coll. on fishing and implementing decree of the Ministry of the Slovak Republic no. 381/2018 Coll. as well as within the union regulations, issues this fishing regulation.

The fishing regulations are valid for holders of local and guest fishing permits issued by the SRZ Ružomberok Ministry of Fisheries and permits issued by the SRZ Council (union and special permits) and also permits issued by the Ministry of Agriculture of the Slovak Republic (special permit according to § 9 of the Decree), to the extent of the validity of these permits. The fishing permit, which does not apply to the areas of the MSO, is invalid and it is not possible to fish on the basis of it in the areas of the MSO SRZ Ružomberok.

**Fishing regulations are issued for the period from 1.1. 2023 until 31.12. 2025.**

## **II. General principles of fishing law enforcement**

In all areas of MSO SRZ Ružomberok, the hunter is obliged to comply with the provisions of the Fisheries Act no. 216/2018 Coll. and on amendments to Act No. 455/1991 Coll. on trade and business and Decree no. 381/2018 Ministry of the Slovak Republic, as well as internal union regulations.

When hunting, hunter is obliged to have a valid fishing license and a corresponding valid fishing permit with him. SRZ members are also required to carry an SRZ member card. In addition, the angler is obliged to carry the measuring device necessary to measure the caught fish, a hook supplier, a landing gear, or, when hunting predatory fish, fishing pliers. For weight volume, a scale can be used or a table can be recalculated, which is part of the catch record (§ 14, paragraph 20 of the Decree).

Each holder of a fishing permit shall submit his/her catch record by January 15 of the following year, after its expiration, to the user of the fishing area that issued it; he will submit the record even if he did not catch fish during the period to which the permit applies.

**We would like to warn fish hunters that failure to comply with this deadline will be grounds for not issuing a fishing permit in the following year (§ 14, paragraph 21 of the Decree).**

Fishing is prohibited in places marked as spawning grounds or wintering grounds. In the 31st December.

Caught fish that the angler is not entitled to appropriate must be released back into the water with due care as soon as possible. Failure to comply with this obligation will qualify as a violation of the relevant provisions of the Act (§9, §13, §14) and provisions of the Decree (§10, §12, §13, §14).

The fish hunter is obliged to release the caught fish back into the water as soon as possible and **it is forbidden to take them outside the bank of the watercourse for the purpose of further handling with them!**

The hunter must not pollute the hunting place and its surroundings, and when cleaning the fish, he must not throw these remains into the water or leave them in the hunting place (§14, paragraph 1)

### III. Special provisions

The Ministry of the Environment of the Slovak Republic approved the increase of the minimum hunting rates, according to §12 par. 5 Decrees, for selected species of fish in areas of MSO SRZ Ružomberok as follows:

Druh ryby/type of fish	Úprava lovej miery / hunting rate	Poznámka/ please note
Grayling	40 cm	Platí pre všetky revíry/ validity for the district MsO
Brown trout	40 cm	Platí pre / validity for the district MsO Váh č. 18A a Váh č. 19A
Brown trout	33 cm	Platí pre revír / validity for the district MsO Revúca

Pozn.: najmenšie lovné miery pre ostatné druhy ostávajú v platnosti v zmysle § 12 Vyhlášky / please note: the minimum hunting rates for other species remain in force in accordance with § 12 of the Decree

Increased minimum fishing rates apply to the fishing grounds of the SRZ Ružomberok MSO in the period from 1.1. 2023 until 31.12. 2025. Every hunter is obliged to follow this provision. Failure to comply with it will qualify as a violation of the Criminal Code or a violation of the Disciplinary Code.

Hunting in areas with the Catch and Release mode: Weight no. 18c, Weight no. 19b and Čutkovo is governed by § 9 of the Act. In the mentioned fishing areas, it is forbidden to appropriate the caught fish, and when fishing in the mentioned areas, the angler is obliged to use a hook without a barb (§ 9, paragraph 3 of the Act).

**Fishing in trout waters is governed by §16 of the Fisheries Act**

**Hunting on grayling waters is governed by §17 of the Fisheries Act**

The Ministry of the Environment of the Slovak Republic in accordance with § 14 par. 3 of the Decree **approved a temporary reduction of the appropriation of grayling catches to one appropriated piece during one day in fishing grounds** no. 3-3220-4-1 Revúca, no. 3-4680-6-1 Weight No. 18a, No. 3-4700-4-1 Weight No. 19a for the period 2023 to 2025.

#### **IV. General provisions**

In order to respect the private property of Mondi SCP, a.s. In Ružomberok, the movement of fishermen along the shore line of the river Váh in connection with the company is possible only in the zone of max. 3 m from the shore line. We ask anglers not to enter the production area of Mondi SCP, a.s. and to respect any instructions of the guard service.

At VN Liptovský Sliačik (3-5080-1-1), which is another body of water, year-round hunting is permitted (§13, paragraph 5 of the Act) with species protection of fish.

#### **V. Measures to save fish in emergency situations**

In case of suspicion of an extraordinary deterioration of water quality, everyone is obliged to inform the Slovak police on the emergency line 158, the fishery guard and the fisheries manager of the Ministry of Fisheries as soon as possible. This also applies to extremely low water conditions or other threatening conditions or during fish spawning.

#### **VI. Final provision**

The fishing regulations are valid for the period from 1.1. 2023 until 31.12. 2025. At the same time, the fishing regulations of the SRZ Ružomberok, which were valid from 1.1. 2020 until 31.12. 2022.
